ANWARKHAN MOHAMED SHARFIRAS

Web Developer | Enterprise Web | Frontend, SEO & E-Commerce

sharfrasaqsan@gmail.com | +94 751 230 001 | linkedin.com/in/sharfiras | github.com/sharfrasaqsan | sharfrasaqsan.vercel.app | Mullipothana, Sri Lanka

PROFESSIONAL SUMMARY

Web Developer with 4+ years of professional experience building SEO-optimized, high-performance web applications for e-commerce, legal, and enterprise environments. Currently working on a global intranet migration at HSBC's Global Service Centre, covering development, content migration, testing, and debugging on WordPress and SharePoint across Dev, UAT, and production release stages. Previously delivered a 30% increase in organic traffic, a 25% improvement in mobile performance scores, and a 15% reduction in page load times. Proficient in React.js, Next.js, TypeScript, Magento 2, WordPress, and CI/CD deployment, with experience in technical SEO, CRM automation with GoHighLevel, and Agile/Scrum teams. Proven track record of remote collaboration with international clients.

WORK EXPERIENCE

Web Production Officer

GSC, HSBC (via TempServe) | Havelock City, Colombo, Sri Lanka *Aug 2026 – Present*

- Build and migrate a large volume of pages for the global intranet migration on WordPress and SharePoint, taking work through Dev, UAT, pre-pilot, pre-deployment, and full production deployment.
- Carry out content migration and validation, checking layout, links, and content integrity so migrated pages match the source and meet release requirements.
- Test and debug pages and components in each environment, finding root causes and resolving defects raised during UAT and pre-deployment cycles.
- Track tasks and defects in Jira, coordinating with testers, content owners, and project teammates to keep each migration phase on schedule.
- Work within a controlled, multi-stage release process, supporting clean handovers between environments through to go-live.

Web Developer

Versus Law | Rajagiriya, Colombo | Manchester, UK (Remote) *Oct 2025 – Aug 2026*

- Built and customized WordPress and custom websites (JS stacks) with advanced JavaScript enhancements, improving user experience and conversion rates for legal sector clients.
- Architected and automated CRM workflows in GoHighLevel (GHL) with AI-driven triggers, reducing manual lead processing time and improving pipeline efficiency.
- Implemented on-page and technical SEO strategies — including metadata optimization, schema markup, and Core Web Vitals improvements — increasing search engine visibility across client properties.
- Managed end-to-end development, testing, and deployment pipelines using CI/CD workflows, ensuring stable and production-ready releases.
- Maintained cross-browser compatibility and mobile-first responsiveness across all client-facing web properties.

Frontend Developer

Oscar Wylee (via Cloud Atlantic International Group) | Sydney, AU (Remote) *Sep 2022 – Sep 2025*

- Developed and maintained high-traffic e-commerce pages using Magento 2 and WordPress for a global retail brand, enhancing content management workflows and customer experience.
- Drove a 30% increase in organic traffic through targeted SEO optimization, keyword strategy, and front-end performance improvements aligned with Google's Core Web Vitals standards.
- Reduced average page load time by 15% through code refactoring, lazy loading, image compression, and caching strategies, directly improving user engagement and conversion rates.
- Increased mobile performance scores by 25% by implementing mobile-first responsive design and conducting rigorous cross-browser testing across devices and screen sizes.

- Contributed to component-based architecture using React.js, reducing feature delivery time and improving long-term codebase maintainability.
- Collaborated in Agile/Scrum sprints with UX designers, product managers, and backend engineers to deliver product features on schedule.

Software Developer Intern

KINIT | Kinniya *Dec 2021 – Jun 2022*

- Contributed to front-end development of web applications using HTML5, CSS3, and JavaScript, building accessible and standards-compliant UI components.
- Developed reusable React.js components, reducing repeated development effort and improving code maintainability across the team.

PROJECTS

Full-Stack E-Commerce Platform | Next.js, React, MongoDB, Node.js, PayPal API, Cloudinary, JWT
github.com/sharfrasaqsan/next-ecommerce-project

- Built a fully functional e-commerce web application with product browsing, category filtering, search, and sorting by price or date.
- Implemented secure JWT-based user authentication with bcrypt password hashing, role-based admin access, and a refresh token strategy.
- Integrated PayPal payment gateway for real-time online checkout and developed an admin panel for full product, order, category, and user management.
- Used Cloudinary for scalable image hosting and MongoDB with Mongoose for persistent data storage.

React Atmospheric Intelligence App | React.js, OpenWeather API, CSS
atmospheric-intelligence.vercel.app

- Built a responsive weather forecast application that fetches real-time weather data for any city via the OpenWeather API.
- Displays current conditions, temperature, humidity, and wind speed with a clean, mobile-friendly UI built in React.js and deployed on Vercel.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery

Backend & APIs: Node.js, Express.js, RESTful APIs, JWT Authentication, Firebase, Supabase

CMS & E-Commerce: WordPress, SharePoint, Magento 2, WooCommerce, Shopify, GoHighLevel (GHL)

Databases: MongoDB, MySQL, Firestore

DevOps & Tools: Git, GitHub, Bitbucket, CI/CD Pipelines, Vite, Jira, Cloudinary

SEO & Analytics: On-Page SEO, Technical SEO, Core Web Vitals, Google Search Console, Ahrefs

Other: Responsive Web Design, Mobile-First Development, Cross-Browser Testing, Content Migration, UAT & Regression Testing, Debugging, CRM Automation, Agile/Scrum

CERTIFICATIONS

- **Introduction to Front-End Development** — Meta (via Coursera) (May 2023)
- **ReactJS for Beginners** — Simplilearn (SkillUp) (Sep 2022)
- **JavaScript for Beginners** — Simplilearn (SkillUp) (Sep 2022)

EDUCATION

Bachelor of Information and Communication Technology (Honours)
University of Kelaniya, Sri Lanka | GPA: 3.14 | Feb 2018 – Sep 2022

LANGUAGES

English (Professional) | Tamil (Native) | Sinhala (Conversational)
